

Our Ability

Chogori has extended its waterproof connector product offerings in chargers, batteries, motors, displays, speedsensors & splitters for use in eBikes.

Chogori connectors offer long mechanical life, high current rating, reliability in vibrating environment and push lock mechanisms for plugs and receptacles.

Chogori shows great flexibility in its design and lean operation capabilities to offer customized connectors and complete cable assembly solutions for its eBike customers.

Area: 12000 m²
Employees: 500 people
Capacity: 10000000 pcs/month

Certificate:
TS16949
ISO9001:2008

Solutions (1)
Battery having different interfaces for charging and discharging

Solutions (2)
Single connector interface for both charging and discharging

- Solutions (3)
Main Features :
- 1. With automatic floating function to ensure connection reliability between connector and battery.
 - 2. Using Chogori's patented Newsok contact, it can withstand big current, vibrations and with mating cycles up to 10,000.
 - 3. Free plug style, very convenient in loading and removing battery.
